00:07:13 One Roof: Good afternoon folks! Here's a link to today's agenda:
https://drive.google.com/file/d/1WFYuSDB07a_7FNYj09Zb66Y8KQ7s4jKJ/view?usp=sharing

00:15:37 Christian: I'm Christian. I am a new HMIS Trainer and Technical Assistant

00:16:06 Chancellor Crawford: I'm Chancellor Crawford with HMIS

00:16:37 Calvin Thomas: Calvin, Behavioral Health Therapist at ARMS

00:16:40 Allysa: I am Allysa - a new Street Outreach Worker!

00:16:53 Hope: Hi, I'm Hope Johnson -- new staff at Disability Rights and Resources

00:17:04 Sloan Bradley: Hi, I am Sloan (they /them) and I am a client care specialist at One Roof.

00:18:21 Tekira Morris: Hello everyone, I'm Tekira and with HMIS as a data analyst at One Roof.

00:18:36 Jeri Tindal: Hi everyone!

00:18:43 lbeatty: I am Lisa Beatty from St. Stephen's Episcopal Church outreach committee.

00:19:03 Deborah Daniels: I have a homeless formerly incarcerated 73 year old female that needs immediate housing. What is available to assist her immediately?

00:20:08 Jeri Tindal: Deborah, please reach out to the One Roof team.

00:22:07 Deborah Daniels: Thanks! Will reach out after meeting.

00:23:21 Leia: May I ask what the UK strain is?

00:23:40 Michelle Farley (she/ her/ hers): So Dr. Williford, why should we still recommend the vaccine if it isn't preventing the Delta variant of COVID?

00:23:52 Jeri Tindal: You can ask Dr. Willeford questions here.

00:24:46 Christian: As someone who had COVID in early January and both Pfizer shots in march, do I need to be worried about my health or primarily about spreading to others

00:25:56 Jeri Tindal: Dr. Willeford, what are some common objections you've heard from people who are concerned about the safety of the COVID vaccines and what are your responses?

00:29:52 Leia: How can we better get our client's vaccinated? Is there a way we can integrate it into our shelters or plans for clients?

00:31:09 Chancellor Crawford: What about claims being made about the side effects from the vaccine? Should people be worried about how their body might reject the vaccine?

00:31:21 Lula Skowronek: My husband was vaccinated months ago and then contracted COVID this week. He is having symptoms like a bad flu, but with his health issues I think he would probably be in the ICU if he was not vaccinated.

00:31:54 Jeri Tindal: Thank you for sharing, Lula and I hope he feels better soon.

00:32:23 Linsey Martin (she/her):Lula, sister had similar situation. Was sick in bed, but at home and it was short lived.

00:32:55 Courtney: Is there any research on the contraction rate in those Who have contracted covid prior to vaccination and have decided on vaccination and those who are vaccinated and have never had covid prior? How would you know if it's natural immunity in the community or just solely the vaccines. Or a combination of both?

00:32:55 byanca.underwood: How are doctors able to differentiate between Covid 19 & the Delta strand?

00:35:05 Sloan Bradley: I may have missed this but, how can we be absolutely sure that there won't be any long term negative effects from the vaccine?

00:37:08 Linsey Martin (she/her):I know there are some pretty severe long term side effects from getting Covid.

00:37:33 Leia: When a client gets vaccinated, it might be hard for them to have a safe place to go and recover from the side effects. How can we make sure that, after a client experiencing homelessness gets the vaccine, that they are safe to recover?

00:38:04 Linsey Martin (she/her):Great question Leia

00:38:30 Christopher Mosley: As part of our 2021 National Health Center Week activities, Alabama Regional Medical Services will be offering COVID-19 Vaccination shots to the unsheltered community on Monday, August 8th, from 9:00 a.m. – 11:00 a.m. in Linn Park. Lunch will be provided to all you attend (be they getting a shot or just coming to find out more information about vaccinations.)

00:38:53 Michelle Farley (she/ her/ hers):Leia, that is a great question, but not one Dr. Willeford will be able to answer!

00:39:02 Jeri Tindal: Oh, wow, Christopher and ARMS, that's great!

00:40:07 Christopher Mosley: @jeri - thanks. And the date is Monday, August 9th not August 8th as I posted in my previous comment.

00:41:07 Leia: @christopher: Is there a way we can put up those flyers in the park to make sure people know?

00:42:16 Christopher Mosley: @leia - absolutely. Let me be sure and get that information over to Gordon at One Roof.

00:43:58 Leia: august 9th!

00:48:49 Jeri Tindal: This vaccine has been highly politicized, which doesn't help.

00:49:12 Sloan Bradley: does anyone else keep losing willefords audio?

00:49:25 Christian: Audio is fine for me

00:49:34 Jeri Tindal: We are having small audio issues.

00:49:36 Hope: I can hear him fine

00:49:55 Aubrey Smith: What happened???

00:52:43 Courtney: Also the CDC and Department of public health need to Consider what they have done with the Tuskegee experiment and it's long terms effects of on communities of color. No one addresses that with hesitancy

00:52:49 Calvin Thomas: What about the vaccine affecting childbirths?

00:52:54 Jeri Tindal: Thank you so much, Dr. Willeford!

00:53:31 Calvin Thomas: Also, The impact of the Delta variant vs Covid 19 on the under 18 population

00:56:21 Keyana " KeKe":Any research on the effects of the vaccine in women childbearing age? Or if the vaccine could effect fertility in child who get vaccinated?

00:58:07 Chancellor Crawford: Are there any plans for mandatory vaccinations for the general public? If so, could this lead to possible protests making more breeding grounds for the virus?

01:04:32 Wesley Willeford: wesley.willeford@jcdh.org

01:04:46 Wesley Willeford: Thank you all! I am going to drop off. Thank you all!! Wes
